

SPECIFICATION AMENDMENTS

Please replace the paragraph starting at page 7, line 8 with the following replacement paragraph:

In addition, the present invention also relates to a computer readable medium comprising a computer program for implementing the preferred methods. The computer readable medium is taken herein to include any transmission medium for transmitting the computer program between a source and a destination. The transmission medium may include storage devices such as magnetic or optical disks, memory chips, or other storage devices suitable for interfacing with a general-purpose computer. The transmission medium may also include a hard wired medium such as exemplified in the Internet system, or wireless medium such as exemplified in the GSM mobile telephone system. The computer program is not intended to be limited to any particular programming language and implementation thereof. It will be appreciated that a variety of programming languages and implementations thereof may be used to implement the teachings of the invention as described herein.
